Logging

...safety in every link

TS= Tyre side protection and tension chain.

Megastud 160 TS

- Developed to meet the rigorous forest conditions.

- Provides excellent traction*
- Offering all over tyre protection*
- Designed to offer outstanding durability*
- Perfect fit to tyre*

Links and U-studs are both pressure and mig welded together for maximum strength and wear resistance, providing aggressive grip and traction.

Megastud 160TS

- Crosschain 16mm
- U-stud 19 mm
- Sidechain 13 mm
- Tensionchain 9 mm
- Rust protected by darkblue chainpaint.

The right to make technical modifications is reserved.

Superstud 160TS

- Provides excellent combination of traction and tyre protection.

Superstud 160TS

- Crosschain 16 mm
- U-stud 19 mm
- Ring 19 mm
- Sidechain 13 mm
- Tensionchain 9 mm
- Rust protected by darkblue chainpaint

The design of the U-stud reinforce the horizontal links and provides excellent traction.

Superstud 160

- The original model.

Superstud 160

- Crosschain 16 mm
- U-stud 19 mm
- Ring 19 mm
- Sidechain 13 mm
- Rust protected by darkblue chainpaint

TS= Tyre side protection and tension chain.

Superstud 130TS

- Provides excellent combination of traction and tyre protection.

Superstud 130TS

- Crosschain 13 mm
- U-stud 16 mm
- Ring 16 mm
- Sidechain 11 mm
- Tensionchain 9 mm
- Rust protected by darkblue chainpaint

The combination of ring and crosschain in Superstud provides an excellent combination of even strength and uniform fit to the tyre during the total lifetime.

Superstud 130

- The original model.

Superstud 130

- Crosschain 13 mm
- U-stud 16 mm
- Ring 16 mm
- Sidechain 11 mm
- Rust protected by darkblue chainpaint

The right to make technical modifications is reserved.

Skogsgrip 130

- Excellent combination of selfcleaning pattern and traction.

Skogsgrip 130

- Crosschain 13 mm
- U-stud 16 mm
- Sidechain 11 mm
- Rust protected by darkblue chainpaint

The design of the U-stud reinforce the horizontal links and provides excellent traction.

Skogsgrip 160

- The heavier version of Skogsgrip 130.

Skogsgrip 160

- Crosschain 16 mm
- U-stud 19 mm
- Sidechain 13 mm
- Rust protected by darkblue chainpaint

TS= Tyre side protection and tension chain.

Supergrip 130TS

- Designed for a combination of all terrain and roadtransport. Offering all over tyre protection. Reversible on tyre for longer life.

Supergrip 130TS

- Crosschain 13 mm
- Ring 16 mm
- Sidechain 11 mm
- Tensionchain 9 mm
- Rust protected by darkblue chainpaint

Supergrip 160TS

- The heavier version of Supergrip 130TS.

Supergrip 160TS

- Crosschain 16 mm
- Ring 19 mm
- Sidechain 13 mm
- Tensionchain 9 mm
- Rust protected by darkblue chainpaint

SRB-LES 10

-Light tire chain, designed for small logging machines, especially for thinning work.

SRB-LES 10

- Crosschain SR 10 mm
- U-stud 10 mm
- Sidechain 8 mm
- Rust protected by darkblue chainpaint

SR-LES 10

- Environmental designed light tire chain, for small logging machines, especially for thinning work.

SR-LES 10

- Crosschain SR 10 mm
- Sidechain 8 mm
- Rust protected by darkblue chainpaint

Tensioning tool No. 2

An effective aid for the mounting of heavy non-skid chains. A heavy-duty tool with stepless locking. Released with a light blow on the lever.

- Special designed for mounting of heavy non-skid chains
- Tightening strength approx ca 70 kN
- Easy to remove
- Strong and durable
- Weight 5,5 kg/pce
- Finish: Red painted
- Box of corrugated cardboard and pallet box

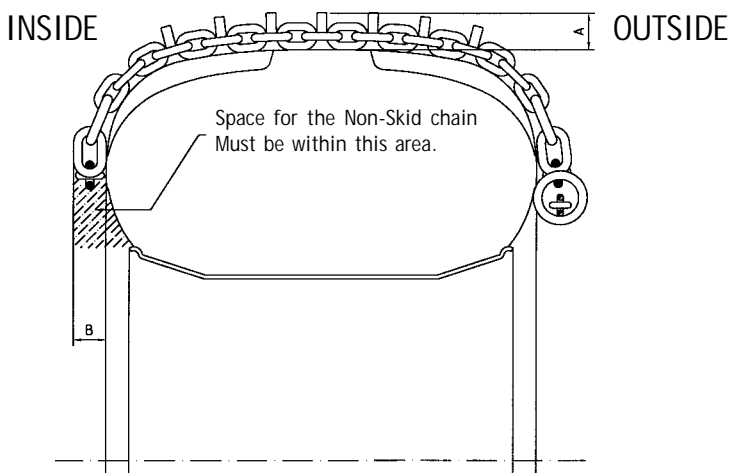

Disassembly Tool No.4 "The Clapper"

Our specially designed tool for disassembling the plug coupling No. 13 and 16. A heavy and difficult task becomes quick and easy with the "Clapper"

- Disassembly tool for plug coupling No. 13 and 16
- Easy to use in combination with a hammer
- Strong and durable
- Weight: 1,4 kg/pce
- Rubber protected bar handle
- Finish: Painted
- Package: Plastic bag

Profile of Gunnebo non-skid chains

TYPE	A	B
Megastud 160TS	83	57
Superstud 160TS/160	83	57
Superstud 130TS/130	65	50
Skogsgrip 130	65	50
Skogsgrip 160	83	57
Supergrip 130TS	44	50
Supergrip 160TS	54	57
SRB-LES 10	53	36
SR-LES 10	36	36
