GUNNEBO

Transport

...safety in every link

SR-Standard & SR-Standard Double

Traditional model for single and double wheels.
Specially designed for haulage trucks.
Reversible on tyres for double lifespan.

SR-Standard & SR-Standard Double

- Square/round SR-chain.
- Case-hardened steel.
- Packed in bags.
- Painted dark blue or tumbled bright finish.

Gunnett SR-Z & Gunnett Double SR-Z

Square/round chain with Z-pattern guarantees grip, steering power and vibration-free driving. Suitable for front and rear wheels. Reversible on tyre for double lifespan.

Gunnett SR-Z & Gunnett Double SR-Z

- Square/round SR-chain 6,5 or 8 mm.
- Case-hardened steel.
- Packed in bags.
- Painted dark blue or tumbled bright finish.

Gunnlight

Superlight non-skid for buses, light trucks and 4WD (SUV).

Gripsteels on each horizontal link ensure an excellent grip. Cam-locks fitted on the outside sidechain makes re-tightening on tyre easier.

Gunnlight 5

- Square/round 5 mm SR-chain.
- Grip-steel.
- Super light-weight.
- Case-hardened steel.
- Packed in bags.
- Tumbled bright finish.

SR-A 8

SR-A is designed for cross-terrain vehicles and road transport with heavy demands upon driving comfort.

SR-A is vibration-free with excellent side-stability, extremely good traction and braking capacity. Tensioning chain. Reversible on tyre for double lifespan.

SR-A 8

- Square/round 8 mm SR-chain.
- Case-hardened steel.
- Tensioning chain.
- Packed in bags.
- Painted dark blue or tumbled bright finish.

Studded truck chains

Gunnett Z Studded

Twisted and studded chain with Z-pattern gives a vibration-free driving.

Suitable for front and rear wheels.

Aggressive grip in icy conditions.

Technical data

- Twisted and studded SV8 mm chain.
- Case-hardened steel.
- Packed in bags.
- Painted dark blue or tumbled bright finish.

Studded Standard (with cam-locks)

Twisted and studded chain.

Cam-locks fitted on outside of the sidechain makes re-tensioning easier.

Aggressive grip in icy conditions.

Studded Standard Extra

Extra twisted and studded crosschains greatly reduce vibration and provide greater traction.

Aggressive grip in icy conditions.

SR-K 10

SR-K is specially designed for heavy snow-clearing vehicles. Ideal for medium-sized tractors operating in the forests. Tensioning chain. Reversible on tyre for double lifespan.

SR-K 10

- Square/round SR-chain 10 mm.
- Case-hardened steel.
- Tensioning chain.
- Reversible on tyre for double lifespan.
- Packed in bags.
- Painted dark blue.

SR-KG 10

SR-KG with grip-steels on horizontal links ensures an excellent grip.

SR-KG 10

- Square/round SR-chain 10 mm.
- Grip-steels.
- Tensioning chain.
- Packed in bags.
- Painted dark blue.

Fork-lift Standard

Extra twisted crosschains provide comfortable driving on hard surfaces.
Reversible on tyre for double lifespan.

Fork-lift Standard

- Twisted SV6 or 7 mm crosschain.
- Case-hardened steel.
- Reversible.
- Packed in bags.
- Tumbled bright finish.

ATV

Square pattern of twisted and studded crosschain.
Special for all terrain vehicles (ATV).
Aggressive grip of road.

ATV

- Twisted and studded SV6 mm crosschain.
- Case-hardened steel.
- Packed in bags.
- Tumbled bright finish.
